Soya Protein, Vitamins, Minerals + Eight Essential Amino Acids
Free from dairy, lactose, wheat & yeast - suitable for vegans

FOOD SUPPLEMENT – Net wt. 448 g – approx. 5-14 day supply

Best Before End: See Base of Container

Store in a cool, dry place, out of the reach and sight of children

SynerProTein is a nutritious non GMO soya protein drink mix that contains a superb range of vitamins and minerals along with eight essential amino acids.

SynerProTein will help you to obtain complete, high quality, non-GMO vegetable protein, without the calories, cholesterol, and fat of some other protein sources. Protein contributes to the growth and maintenance of muscle mass, and the maintenance of normal bones, so it's important to consume enough protein each day to meet your daily requirements.

This formula contains the unique SynerPro Concentrate, which provides concentrated cruciferous vegetables including broccoli and cabbage, turmeric, red beet, rosemary, carrot, tomato, and bioflavonoids, all of which contain beneficial antioxidant elements.

SynerProTein contains antioxidant Vitamins A and C, which contribute to the protection of cells from oxidative stress, and the protection of DNA, proteins, and lipids from oxidative damage.

The range of B vitamins in SynerProTein contribute towards normal energy-yielding metabolism, the immune system, the nervous system, and a reduction in tiredness and fatigue. The B vitamins in this formula also contribute towards the normal function of the heart, the maintenance of normal vision and skin, normal mental performance, red blood cell formation, neurological and psychological function, and the protection of DNA, proteins and lipids from oxidative stress. Because B vitamins

cannot be stored in the body, they must be replenished and topped up every single day.

Each 32g serving of Chocolate SynerProTein provides 14g of protein, 13g of carbohydrate and only 1.5g of fat.

Suitable for vegetarians and vegans.

Directions: Mix one scoop (32g) of SynerProTein to 8 fl.oz. (236ml) of water or skimmed milk. Blend, shake, or stir vigorously. Drink up to three servings daily, as required. Try adding your favourite fresh fruits to the blender to make your own Protein Smoothie!

Do not exceed the stated recommended daily dosage.

This product contains vitamin A in the form of retinol. Do not take more than one serving a day during pregnancy, or if you are likely to become pregnant, except on the advice of a doctor or antenatal clinic.

Food supplements should not be used as a substitute for a balanced diet.

Always consult your Doctor or Pharmacist before taking food supplements when you are on prescribed medication.

Do not use if inner seal is missing or damaged.
